

**Report
on
2004 STPs Survey on Volunteer Driver
Organizations and Drivers
May 2005**

This report summarizes the results and provides data from the 2004 STPs survey of volunteer driver programs and volunteer drivers themselves. The survey was conducted in the fall of 2004.

The Executive Summary introduces the purpose and participants of the organization and volunteer driver surveys and findings, challenges and recommendations for further research.

Part I – Survey of Volunteer Driver Organizations includes an analysis of the responses of 46 organizational leaders to the STAR Search survey..

Part II: Survey of Volunteer Drivers includes an analysis of the responses of 246 volunteer drivers to the STAR Search survey.

The STAR Search survey is an annual survey of Supplemental Transportation Programs for seniors (STPs). The survey originated in 2000 and has continued on an annual basis since that time. Currently, there are almost 500 organizations in the STAR Search data base.
